Illustrative Monthly Contribution Schedule

Ticker	Asset Class	Gap to Target ($)	Suggested Monthly ($)	Share of Monthly %
AAPL	US Equities	$801.25	$35.83	14.3%
MSFT	US Equities	$976.44	$43.67	17.5%
TSLA	US Equities	$354.33	$15.85	6.3%
VEA	International Equities	$2,542.20	$113.69	45.5%
BND	Fixed Income	$915.91	$40.96	16.4%

At approximately $250/month, this schedule would allocate contributions proportionally to each holding's shortfall. In total, it would take about 22.4 months of contributions to fully close the current gaps, assuming markets are flat and this allocation is followed.

Next Steps & Ongoing Strategy

Focus Area	Guidance
Rebalancing	Review annually; adjust if allocations drift ±5%.
Contributions	Automate around $250/mo into your target allocation.
Risk Management	Stay within your risk tolerance; increase bonds as you approach major goals.
Monitoring	Avoid overreacting to short-term volatility; review quarterly or annually.
